

With more than 6,200 employees in research, teaching and administration and a student body of around 33,550, TU Dortmund University shapes prospects for the future. The university's unique profile of cooperation between engineering and science and social and cultural studies drives technical innovations as well as progress in knowledge and methodology, benefiting the individual student and society as a whole.

The Faculty of Statistics at Technische Universität Dortmund seeks candidates for a

## University Professorship (W3) “Economic and Social Statistics”

to be appointed as soon as possible. The professorship is expected to represent the subject of Statistics in research and teaching.

Our faculty is the only autonomous Faculty of Statistics in the German-speaking countries, offering a versatile research environment by managing and participating in several Collaborative Research Centers (SFBs) in the fields of Statistics, Economics, Computer Science and Engineering.

We seek an excellent and internationally renowned expert with high-level research results in the development of statistical methods as well as their application in economics and social sciences.

Applicants are expected to have the ability to obtain external funding and the willingness to actively contribute to our research centers, such as the SFB 823 “Statistical modelling of nonlinear dynamic processes”.

The tasks of the successful candidate comprise an adequate involvement in teaching, e.g., statistics for economics and social studies. We expect social and leadership competencies. While knowledge of German is desirable, it is not a requirement for the position.

Preconditions for employment are specified in § 36 HG of the State of North-Rhine-Westphalia.

TU Dortmund has been pursuing the strategic goal of increasing the percentage of women in science and therefore encourages women to apply. Disabled candidates with essentially equal qualifications will be given preference.

TU Dortmund supports the compatibility of family and work and promotes gender equality in science.

Please submit your application with the usual documents, three publications, a research plan (max. 2 pages) and, if available, teaching evaluations, preferably in electronic form, with deadline September 22, 2016, to:

Dean of the Faculty of Statistics  
Prof. Dr. Katja Ickstadt  
Technische Universität Dortmund,  
D-44221 Dortmund, Germany
